

# List of files

September 11, 2007

This file contains mappings between the Chinese Treebank file names and their original names in the source data. In some cases, there are alternative names in the source data. The Chinese Treebank file names are in the first column. Their original names are in the second column (and third if there are more than one original names).

The files marked \* are the recommended test data and they constitute about 10% of the data in this release. The files marked † are recommended development data and they constitute about 6-8% of the data.
